Leonberg, October 25<sup>th</sup>, 2022

### **New directional TECHART Formula VII Race forged wheel for Porsche 911 Turbo, 911 GTS and 911 GT3.**

**The new directional TECHART lightweight forged wheel with central locking TECHART Formula VII Race is now available for all Porsche 911 Turbo, 911 GTS and 911 GT3 models of the 992 generation. The dynamic wheel design enables a wide range of color variants and surfaces. The new wheel and more TECHART highlights will be presented at the upcoming SEMA Show 2022 in Las Vegas from November 1-4, 2022.**

### **Lightweight design meets maximum individuality: TECHART Formula VII Race.**

TECHART is expanding its portfolio of high-quality forged wheels for Porsche vehicles - consisting of the wheel designs TECHART Formula VI, Formula VI Race and Daytona II. The new lightweight wheel TECHART Formula VII Race in the expressive directional turbine styling is manufactured using modern forging technology and is available in numerous variants. The additional designation Race in the model name indicates the wheel design as a central locking wheel.

TECHART offers the directional TECHART Formula VII Race in the variants painted in custom uni color, uni color painted with diamond cut rim star, Dualpaint, uni color painted with contrasting rim star in RAL color or high gloss ceramic polished.

The wheel dimensions of the weight-reduced TECHART Formula VII Race forged wheels are 9.5 x 20 inches OT 42 on the front axle for the Porsche 911 Turbo models and 11.5 x 21 inches OT 62 on the rear axle, for the 911 GTS 9 x 20 inches OT 46 at the front and 11.5 x 21 inches OT 62 at the rear as well as 9.5 x 20 inches OT 42 on the front axle and 12 x 21 inches OT 42 on the rear axle for the 911 GT3. The weight of the TECHART Formula VII Race forged wheels for the 911 GTS is only 9.8 kg on the front axle and 11.9 kg on the rear axle.

For all owners of Porsche 911 models with 5-lug wheels, TECHART offers the popular Daytona II and Formula V wheel designs for an individual and dynamic appearance.

### **Further upgrades for improved handling and more everyday suitability: TECHART Coilover Spring Set and TECHART Noselift System.**

Meeting the highest performance requirements and enabling a firm setup, the TECHART Coilover Spring Set is an additional upgrade for the Porsche 911 models in terms of driving dynamics with lowering of the vehicle level in the adjustment range from 15 mm to approx. 40 mm. The TECHART Coilover Spring Set is suitable for vehicles with and without PASM, with and without front axle lift system, and with and without sports suspension ex works. TECHART in Leonberg provides professional installation services for Porsche owners including setup of the suspension, as well as calibration of the sensors and camera systems of their Porsche model.

In everyday use, the TECHART Noselift System offers additional ground clearance of approx. 40 mm at the push of a button for all Porsche 911 models that are not equipped with a front axle lift system as standard.

### **Discover TECHART at SEMA Show 2022 and online in realtime 3D.**

TECHART is exhibiting latest product highlights and TECHART bespoke Porsche models at this year's SEMA Show from November 1-4 at the Las Vegas Convention Center. TECHART is located at Central Hall in booth #21303.

Customers and fans can experience the TECHART customization options as well as numerous wheel design variants for their Porsche model in the TECHART 3D configurator:
