Leonberg/Germany, April 27th, 2020

New TECHART performance options for 911 Coupe and Cabriolet offer sound, styling and power upgrades.

The range of TECHART equipment provides all 911 owners a world of personalization options and sport upgrades for body styling and aerodynamics, interior, engine power and dynamic driving. Now, TECHART has launched new performance options for 911 Coupes and Cabriolets.

Weight: 60%. Sound: 100%.

TECHART launches new titanium sports exhaust with dynamic sound management.

The new TECHART sports exhaust is made of titanium and, sound-wise, sets driver and codriver in Sport Mode immediately. Exhaust valves are dynamically adjusted, providing extraordinary soundscapes and emotional exhaust backfire at will. The sound characteristics can be adjusted by the driver using the regular driving mode switch and is also automatically adjusted in accordance with the respective driving manner. If the car is a Carrera S or Carrera 4S equipped with a TECHART powerkit, switching from Normal to Sport or Sport Plus puts a 60 horsepower boost into service at the same time (vehicles without Gasoline Particulate Filter: 80 horsepower boost).

The TECHART titanium sports exhaust weighs 40% less compared to a stainless steel version. The exhaust system comes ready-to-install and includes the valve-controlled TECHART muffler, the electronic valve management unit and the required wiring harness.

Sport styling feature – fitting standard 911 models, too.

New TECHART carbon exhaust tips.

Pure sportiness, even at standstill: the TECHART carbon exhaust tips are available in high gloss or matt finish, to set a visual highlight at the 991' rear. TECHART's carbon trims fit the 911 in conjunction with the TECHART sports exhaust system or the Porsche sports exhaust system either way.

PRESS INFORMATION

Intelligent engine power upgrades for vehicles with and without Gasoline Particulate Filters. The TECHART Powerkit for 911 Carrera S and Carrera 4S.

Engine power enhancement kits with TECHART's TECHTRONIC engine management are a key feature of the TECHART refinement range. In 911 Carrera S and Carrera 4S models without Gasoline Particulate Filter, the TECHART TECHTRONIC based power upgrade provides an additional 80 horsepower (59 kW) boost which results in an overall power output of 530 horsepower (390 kW). The maximum torque is increased by 100 Newtonmeters to 630 Newtonmeters.

Vehicles with Gasoline Particulate Filter:

+44 kW (+60 hp), +80 Nm. Total output: 375 kW (510 hp), max. torque: 610 Nm.

Powerkit	TA 092/S1	TA 092/S1
for	911 Carrera S/4S 3.0 I/450 hp/530 Nm with Gasoline Particulate Filter	911 Carrera S/4S 3.0 I/450 hp/530 Nm without Gasoline Particulate Filter
power enhancement	+44 kW (+60 hp)	+59 kW (+80 hp)
torque increase	+80 Nm	+100 Nm
total power output	375 kW (510 hp)/610 Nm	390 kW (530 hp)/630 Nm
consisting of	TECHART TECHTRONIC, wiring harness, installation manual, TECHTRONIC Warranty ¹	TECHART TECHTRONIC, wiring harness, installation manual, TECHTRONIC Warranty ¹
	<small>¹ TECHTRONIC Warranty Terms apply, available at www.techart.com/techtronic</small>	<small>¹ TECHTRONIC Warranty Terms apply, available at www.techart.com/techtronic</small>

Driving Performance with TA 092/S1 Powerkit (911 Carrera 4S, Sport Chrono Package)

0-100 km/h	3.2 s	3.1 s
0-160 km/h	6.8 s	6.7 s
0-200 km/h	10.5 s	10.4 s
Top speed	314 km/h	314 km/h

One of the core values of TECHART powerkits is the intelligent integration into the vehicle's electronic management. The power upgrade is activated in the 911's driving modes Sport and Sport Plus. Therefore, a switch of the standard driving mode button is everything it takes to enter a new level of driving performance. In Normal Mode, the 911 can still be driven with its standard performance and standard fuel consumption.

Good to know: the TECHART TECHTRONIC powerkit considers the 911's assistance systems, such as the innovative water detection feature. In Wet Mode, the TECHART powerkit reduces the power boost automatically.

PRESS INFORMATION

TECHART Automobildesign. The Brand. The Company.

TECHART Automobildesign GmbH, with its headquarters in Leonberg near Stuttgart, sets global standards in terms of premium refinement for Porsche cars. Founded in 1987, TECHART has been living this passion for over 30 years.
